Summary

at Hugging Face benefits from my enthusiasm for AI and my ability to fine-tune models, a skill honed through my ongoing degree at WorldQuant University. Partnering with iSchool, we enable the next generation to grasp the intricacies of AI, fostering a future rich in tech-savvy thinkers.

As an ambassador at Solve Hub, I contributed to innovative solutions by leveraging my manual testing and data modeling expertise. We are dedicated to evolving the AI discipline, ensuring it's accessible and enriching for all. My journey intertwines education with real-world application, preparing me to be a driving force in the AI landscape.
